19	AI insights	Pending approvals count	Ops dashboard	Search sidebar	Live
20	Themes & settings	Light/dark, chat, search	Personalization	Settings	Live

Role summary

Role	User	Approve	Delete	Upload	Govern
Admin	superadmin	Yes	Yes	Yes	Yes
Manager	admin	Yes	Yes	Yes	Yes
Viewer	user	No	No	Yes	No

Typical scenarios

Scenario	Modules	Outcome
Find inspection reports	Search + Local	Report in < 30 sec
Approve contract	Version + Export	Signed PDF artifact
Define retention	Governance	Docs flagged per policy
Monitor adoption	Analytics	Source counts visible

Multilingual HR	Search + Chat	Policies summarized

Known limitations

- Search index and Document Version use separate stores.
- Export uses extracted text, not original Word layout.
- OCR is text extraction from files, not handwriting OCR.
- Governance/analytics show real data only after connect + setup.
- OpenAI key optional — fallbacks work without it.
